TURNING EVERY SPACE
INTO A STATEMENT OF
EXCELLENCE

Introduction

For more than 5 Years, **VeOne** has been a leading name in India's real estate marketing space. Starting out as a turnkey exhibition contractor, we have grown into a dependable design-and-build partner, creating memorable brand experiences for top developers.

Today, our Mumbai-based team runs a [35,000 sq. ft.] fabrication unit backed by [200+] skilled professionals, which allows us to deliver precision, quality and smooth execution at every stage.

We take a concept from first idea to a fully functional sales environment, handling each detail so that you can concentrate on closing sales. By combining strategic storytelling with strong design, we build premium spaces that win trust, hold attention and deliver results.

Because our approach is fully integrated, your sales lounge, launch event or marketing activation is never just constructed. It is carefully crafted to convert.

Vision

To shape the future of real estate in India by building world-class, sustainable spaces that enrich lifestyles and set new benchmarks of value.

Mission

To craft innovative, cost-efficient project experiences that engage audiences, drive faster conversions, and establish new standards in real estate marketing.

Core Values

Our foundation is built on innovation, quality, integrity, customer-centricity, and efficiency. We pursue excellence in every detail, ensuring each project elevates your brand's value and presence.

14 EVENTS & ACTIVATIONS

Sales Gallery/ Sales Office

The sales gallery is the place where a first impression grows into a firm decision. We build immersive environments that bring together storytelling, design, technology and hospitality to spark interest and keep visitors engaged.

Sales lounge

An elegant setting for one-to-one consultations and smooth guidance that helps buyers decide with confidence.

Experience Centre

Hands-on, interactive spaces that use sensory storytelling to strengthen trust in your brand.

Signature Lounge

A carefully designed luxury lounge with polished interiors and premium branding, created to offer comfort, build trust and support confident buying decisions.

Temporary Sales office

A practical setup that equips buyers with key information, quick consultations and an easy first step in their buying journey.

Show Flat

A fully furnished, designed home that lets buyers see the layout, interiors and lifestyle for themselves before they make a choice.

Channel Partner Meet

Interactive events for your sales network, including product showcases, training sessions and galas that mix brand storytelling with practical, hands-on experiences.

Invester flat

A thoughtfully prepared space that presents the investment potential of the project, highlighting its design, expected returns and long-term worth.

Corporate Office Interior

A well-designed workspace that reflects professionalism, enhances productivity, and creates a strong brand presence.

Project Infra Branding

We turn construction sites into recognisable branded landmarks, using sturdy and eye-catching infrastructure that strengthens your identity.

Site Branding & Signage

Get noticed with long-lasting, high-impact hoardings, signs and panels, where our branding helped increase footfall.

Sample Flat

Carefully built living spaces that let buyers truly experience their future home.

Bhoomi Poojan Ritual Visual

We plan and carry out Bhoomi Poojan and inauguration ceremonies with grace, blending tradition with your brand identity to mark a meaningful and auspicious start.

Temp Structures & Utilities

Complete turnkey support for events and campaigns, covering tents, marquees, booths and all necessary utilities, so that the setting is polished, practical and comfortable.

Project Journey: From Idea to Execution

Our process is divided into two clear phases, so that you get clarity, efficiency and dependable results at each step.

Phase 1: Discovery & Planning

01. Requirement Mapping

After your enquiry reaches us, our team speaks with the key stakeholders to understand your vision, schedule and business goals, so everything is aligned from the very beginning.

02. Site Study & Concept Layouts

We carry out a thorough site review, study the available space and turn our findings into practical layout concepts that you can review right away.

03. 3D Concept Development

Our designers prepare several 3D views so that you can visualise and assess the space before settling on a direction.

04. Material & Design Direction

We put forward selected options for finishes, materials, lighting and branding, balancing looks, usability and budget.

05. Financial Structuring

We share flexible commercial models that match your priorities, such as outright purchase, rental or tailored plans, so the decision stays in your hands.

06. Finalization & Go-Ahead

Once all details are approved, we complete the agreement and start the project with a confirmed work order.

Project Journey: From Idea to Execution

Phase 2: Execution & Completion

01. Project Initiation & Alignment

Before work starts, our teams lock down the scope, technical drawings, timelines and material specifications, so everything is clearly defined and ready to go.

02. Pre-Execution Validation

We check site conditions, safety standards and logistics in detail to make sure the project begins smoothly and without risk.

03. On-Site Execution & Tracking

With manpower in place and materials procured as planned, work moves forward step by step under close monitoring for consistency and timely delivery.

04. Quality Assurance & Site Coordination

Regular inspections and active coordination make sure each element meets our quality standards and that the final build stays true to the design.

05. Progress Reviews & Client Updates

Weekly structured reviews give you clear updates, so you have full visibility and peace of mind throughout.

06. Final Finishing & Handover

After detailed inspections, walkthroughs and complete documentation, we hand over a polished, ready-to-use space.

07. Ongoing Support Post Completion

Even after handover, our team stays available during the support period to handle any adjustments and make sure everything works flawlessly.

Flexible Engagement Models for Developers

Every project has its own goals and timeline. For that reason, we offer adaptable models to fit different investment approaches and growth plans.

Outright Ownership (Full Control)

Own your sales space from the first day through a single, one-time investment. You get full control, long-term value and a fully tailored setup that matches your brand.

Best suited for: Developers looking for lasting use and a permanent sales asset.

Rental Model (Pay as You Use)

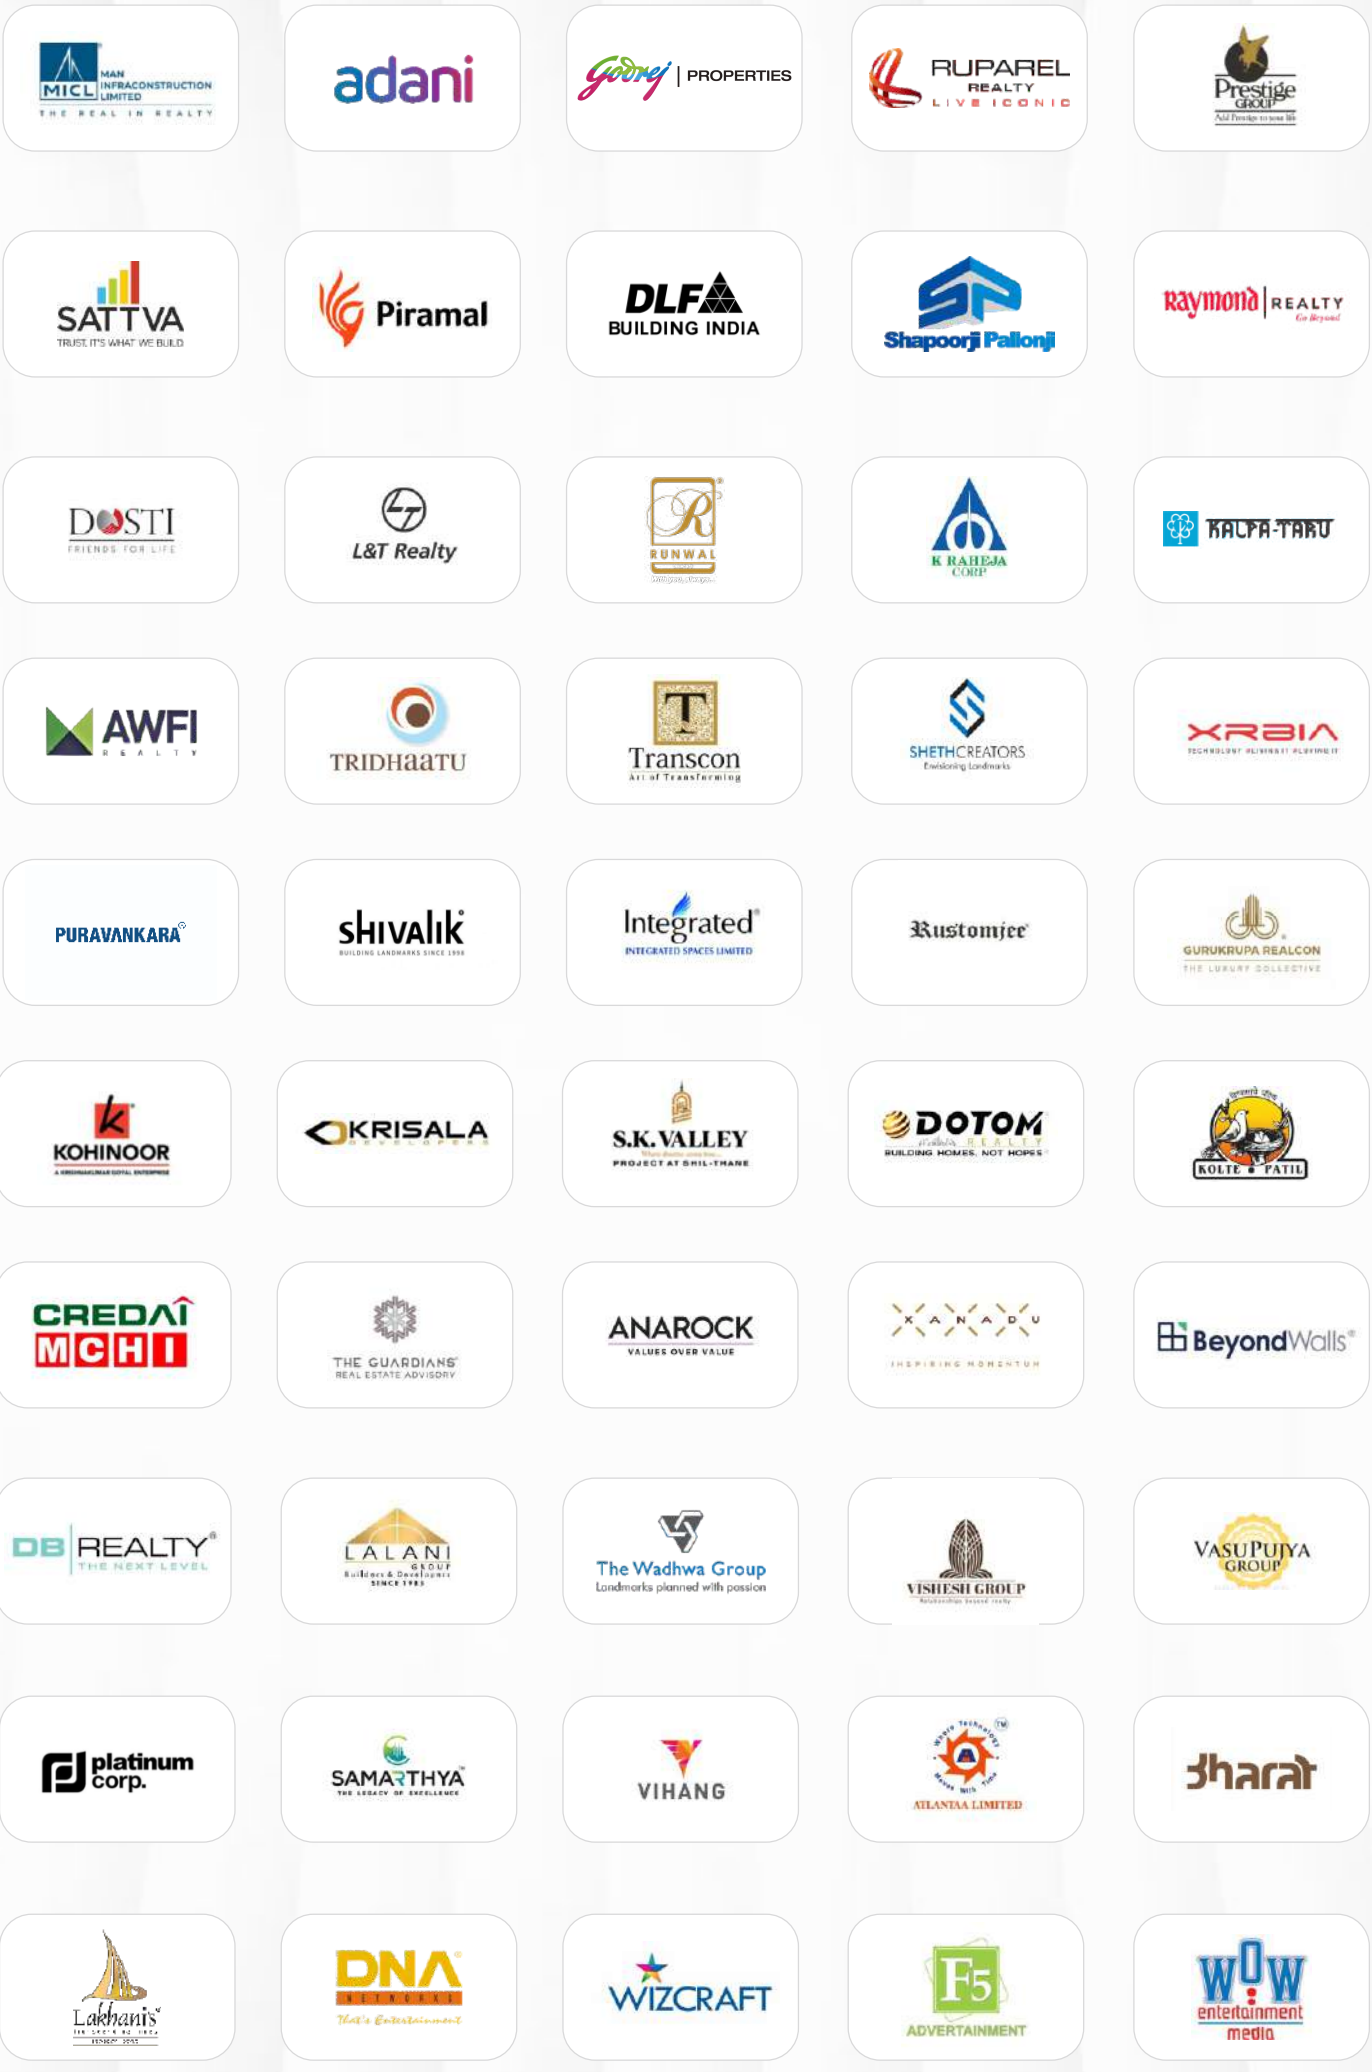

Enjoy a premium sales environment with a low upfront cost through a flexible monthly rental. A good fit for projects with set timelines and phased launches.

Best suited for: Short to mid-term projects that want efficiency with a smaller initial outlay.

Buyback Option (Start Flexible, Own Later)

Start on rental and move to ownership when the time is right. A structured upgrade cost makes the switch simple as your project grows.

Best suited for: Developers who want flexibility today and the choice to own later.

Events & Brand Experiences

Strengthen your brand's presence through well-planned corporate and public events, fromhigh-impact launches to large community gatherings. Our team handles the complete journey, including concept, production, audio-visual setup, staging and guest management, so that every touchpoint reflects your brand's identity and purpose.

Key Features: Project launch ceremonies and expos; corporate conferences and retreats; political and civic events; complete production (stages, audio-visual, seating); event staffing and security.

Every service we provide is driven by a focus on performance. Beyond simply carrying out the work, we aim to create immersive experiences that boost engagement, bring in qualified leads and support conversions. From design storytelling to on-ground delivery, each detail is planned to achieve maximum impact and measurable results.

Let's Build Your Next Success Story

Get in touch to see how our structured, results-driven approach can turn your sales and marketing efforts into powerful, high-converting experiences.
